present time in naval construction, to seep navies at what would amount to their same relative strength without endeavoring to outdo the other country. The time has come when the demand for a letin in the pace is being recognized in is willing to go at its without similar action on the part of other, That is a reaa do is to proceed under an international agreement which it is expected can be reached as the result of such a gathering is is planned. That would be a move would mean a marked advance. Likewise for the purpose of further renoving the menace of war there are more entries than this interested in the idea

of an international association for the remotion of peace that would be constructed about an international court to which the problems menacing peace would

In keeping with the statements which he has made during the past several months the intention of President Harding to call the conference is only what sarly steps should be taken even as he and indicated. The country will view the progress with particular interest.

GENERAL WOOD'S JOB. Just what the outcome of the recent ofer of the governor generalship of the ippines to General Wood rests with the future to disclose. That he has not scoepted the offer is indicated by the anconcement to the effect that he has been ordered to go to the Philippines and make an investigation for President Harding concerning the conditions that exist there. Such a mission involves an inquiry conperning political unrest, military weaksess and trade depression while there ave been rumors to the effect that sedi-

on existed. Going on such a mission is different m going as the governor general. He Ill still be connected with the army and firing the investigation he makes he will ave an opportunity to get in touch with ditions there so that he will be in a hetter position to decide whether he wants the post in case the vacancy still exists. remembered that aff attempt was made to send General Wood to the Philin charge of that military disrict at the time when he was put in tharge of the southern district with headmarters at Charleston. He was then ofered either one of the posts and selected that at Charlesten. At that time the imremion was that it was desired to get

ODD INCIDENTS IN AMERICAN

Washington proposed the attack on Stony Point to Anthony Wayne, Fleury was one of the men "Mad Anfleury was one of the men along the fleury was a serious undertaking, but I was a serious undertaking, but I was a serious undertaking. The fleury went to his work with a light heart, sure he was going to win. The attack was to be at midnight, July 15, 1779. In unusual darkness Wayne's army crept out towards the gloomy, stern, frowning heights of Stony Point. The main guard of the right column was in charge of the French-man. Across the narrow cabseway "The practice of Mexico

column was in charge of the Frenchman. Across the narrow cabeeway the men waded waist high in the tide. They had not proceeded far when they were discovered by the pickets. In an instant the alarm was given, and soon the roar of the British cannon awakened the echees of the night.

No response came from the Americans. There, was to be nothing, that night but the bayonet. The Americans dropped one by one, but on and up went the vanguard. The right guard lad by Fleury, reached the summit first fremendous gushers that he first of the tremendous gushers that have astoncans. There was to be nothing, that night but the bayonet. The Americans dropped one by one, but on and up went the vanguard. The right guard led by Fleury, reached the summit first and rushed through the sallyport of the flar heating. Fleury was the first man led by Fleury, reached the summit first tremendous gushers that have astonand rushed through the sullyport of the laked the world was brought in, near flag bastion. Fleury was the first man San Geronimo, spouting between \$9,000 in. With such terrible energy did the invaders plunge in that the English had

to chance to concentrate.
"The fort's our own!" was the cry
of the Americans. "Mercy! Quarter!
Mercy!" was the answer of the Brittore down the British

hrenkfast within the enemies lines and in triumph. Congress awarded medals to Wayne, Fleury and Stewart, In respect to Fleury congress decided that the ribbon to which the medal should be attached should be made from the flag that he had captured at

Stony Point. When the campaign of 1779 ended Fleury applied to Gen. Washington for leave of absence for nine months to visit France: He had given three years of service to America, and he longed to see his native land. The leave was granted, and such marks of respect were shown to the gay young Frenchman as must have warm-

ed his heart. The president of congress wrote to him;
"Congress hopes that your own country
will show its appreciation of your merit."
George Washington, on his first meeting
with Count de la Luzerne, the French minister, gave an account of Fleury's gal bring it to the attention of the king of

New Hair Growth After BALDNESS

On legal effidavit, John Hart Brittain, business man, certified to this: "My head at the top and back was absolutely baid. An expert said that he thought the hair roots were extinct, and there was no hope of my ever having a new hair growth.

"Yet now, at an age over 66, I have a luxurisht growth of soft, strong, lustrous hair! No trace of baldness. The pictures shown here are from my photographs." INDIANS' SECRET OF HAIR GROWTH .

Mr. Brittain certified further: "At a time when I had become discouraged at trying to grow my hair again, I came across, in my travels, a Cherokee Indian 'medicine man' who had an elizir that he asseverated would grow my hair. Although I had but little faith I gave it a trial. To my amasement a light fuzz soon appeared. It developed, day by day, into a healthy growth, and ere long my hair was as prelific as in my youthful days."

True Hair Grower at Last "That I was assonished and happy is expressing my saids of mind.

Photo when bold, mildly. Obviously, the hair roots had not been dead, but were dormant in the scalp, awaiting the fertillising potency of the then mysterious pomade. I negotiated for and came into possession of the principle for preparing this, now called KOTALKO, and later had the recipe put into practical form by a chemist. That my own hair growth was permanent has been amply proved."

It has been proved in very many cases that hair roots did not die even when the hair feil out through dandruff, fever, alopecia areats, or certain other Falling Hair Baldness Dandruff
